CV RESUME

BRIE CHABI

I'm a bilingual (EN/AR) instructional designer and EdTech builder who transforms complex technology into learning experiences people actually enjoy. With a background in computer science and hands-on teaching across coding, AI, and digital skills, I design intuitive, gamified learning that boosts engagement, builds confidence, and prepares learners to thrive in the future of work.

EXPERIENCE

FOUNDER, INSTRUCTOR & PROGRAM DEVELOPER

STEMCRAFT EDUCATION INC. **2024-PRESENT**

Founder of STEMcraft Education, where I design curriculum, teach coding and game development, manage all business operations, and build the website and digital learning tools that support the student experience.

- **Curriculum Development:** Create custom AP-aligned worksheets, projects, and assessments for Python, Java, and Unity.
- **Teaching & Instruction:** Lead 1:1 and group sessions in coding, game dev, AI concepts, and AP Computer Science A.
- **Business Management:** Oversee finances, marketing, SEO, analytics, and parent communication.
- **Web Development:** Build and maintain the STEMcraft website and digital learning materials using WordPress and Canva.
- Learning Experience Design: Manage LMS workflows, scheduling, and student portals for smooth delivery.

LEARNING EXPERIENCE DESIGNER

MAESTRO **2026-PRESENT**

Design and develop interactive learning experiences using Articulate Rise and Storyline, collaborating with global brands and corporate partners to transform storyboards into engaging, standards-aligned digital courses. Partner closely with subject matter experts, project managers, and stakeholders to deliver high-quality learning solutions on tight timelines while maintaining strong instructional design and UX principles.

TECH INSTRUCTOR & TECH CURRICULUM DEVELOPER

CRIMSON GLOBAL ACADEMY **2025-PRESENT**

Teach AP Computer Science A (Java, OOP) and lead technology curriculum development, including Canvas LMS module design, project management, SME collaboration, and standards-aligned content delivery.

GAME DESIGN INSTRUCTOR

CIRCUIT STREAM **JUNE 2025**

I delivered a structured 9-day game design course using MakeCode Arcade, teaching core design concepts through a Mario-style platformer project. I supported students with daily workshops, project troubleshooting, and final showcase preparation.

CODING INSTRUCTOR

WELLS ACADEMY & GEEKEDU **2022-2024**

At Wells Academy and GeekEdu, I taught students ages 8–17 programming in Python, Java, and Unity while delivering curriculum-aligned tutoring for ICS3U and AP Computer Science A. I designed customized worksheets, projects, and assessments to reinforce learning and supported students through project-based lessons in game development and algorithms.

EDUCATION

BACHELOR OF COMPUTER SCIENCE, GAME DEVELOPMENT SPECIALIZATION

QUEEN'S UNIVERSITY, CANADA **2025**

MASTER OF EDUCATION, EDUCATION TECHNOLOGY AND INSTRUCTIONAL DESIGN: K-12 AND ADULT LEARNER SPECIALIZATIONS

WGU, USA **2027**

SKILLS

EDTECH

Canvas LMS • Assessment design • Game-based learning • Articulate 360 • Rise 360 • Camtasia • Adobe Captivate • Canva • Microsoft Office Suite • Google Workspace • Instructional media creation

PROGRAMMING

Python • Java • C# • Unity • HTML/CSS • WordPress development • Arduino microcontroller • Algorithms • OOP • AI tools & agents (Copilot, Gemini, OpenAI, Lobe, Lovable, Cursor).

BUSINESS MANAGEMENT

Strategic planning • Budgeting • Operations management • SEO • Google Ads • Analytics • Communication • Trello • Slack • WordPress administration.

AWARDS

WINNER OF THE HACKHER 2020 HACKATHON IN THE CASUAL CODER CATEGORY.

FINALIST IN CODINGLEAGUE CANADA WITH THE STEMCRAFT GAME DEVELOPMENT TEAM.
